CRIME PREVENTION TIP:

We have some tips in order to protect yourself from individuals who might want to cause you harm and steal your property in the process, in other words, robbery. We suggest you don't walk or jog early in the morning or late at night, if you are out at night ask a friend or family member walk with you. When going out for the day carry only the money you will need with you. Don't display your cash or any other valuables for anyone else to see. If you think someone is following you, switch directions or cross the street, if they continue to follow you quickly move in a storefront or lighted house and don't be afraid to yell for help. Do you best to park in well-lit areas with good visibility to walkways, stores, and people. Make sure to have your key ready as you approach your vehicle. If you end up being robbed, give up your property it's less important than your life. Report the robbery immediately, do your best to describe the attacker accurately, this can help prevent future robberies. With these tips you're better equipped to defend yourself from a robbery!
