## **CRIME PREVENTION TIP:**

If you have children that play out in your neighborhood, here are some tips to be sure they are safe and enjoy the outdoors. Always know where your children are and have them leave a phone number if they go over to a friend's house. Help your children to learn important emergency contact information. Have them practice your home phone, address, work and cell phone numbers, and if they have trouble memorizing them, give them a card to carry at all times. Set limits on where your children can and can't go in the neighborhood. Get to know your children's friends, keep a list of their home phone numbers and make an effort to at least talk with those children's parents to get familiar with them. With these tips you can give your kids the knowledge to stay safe in your neighborhood.
