## **CRIME PREVENTION TIP:**

In this week's crime prevention tip of the week, we would like to talk about garage doors and how to keep that entry way into your home as safe as possible. We suggest once you enter your garage, that you close the door behind you. Remove any items of value that are in your vehicle and secure your vehicles even while parked in the garage. If a garage is left open, criminals more commonly desire expensive tools, sports equipment, lawn equipment and unsecured bicycles. Consider purchasing a deadbolt for the door from the garage into the home. There are many technologies available such as remote openers which can be disabled while out of town, coded entry systems, smart phone synchronization apps, and safety film if your garage has glass windows that help protect your garage from. With these tips, you can better prepare your garage against burglaries.
