## **CRIME PREVENTION TIP:**

Vacant or abandoned properties can cause deterioration in our neighborhoods and can give those who intend to do harm a sense that no one cares what happens to the neighborhood and surrounding area. We believe it wise to keep an eye on any properties that fit the description of vacant or abandoned in order to keep our community safe and sustainable. Here are some tips to assist you in these efforts. Please report broken windows, doors, vandalism or suspicious activity to local law enforcement, and work with law enforcement and other community residents to monitor vacant homes. Contact the City of Temple Terrace Code Enforcement office to report overgrown grass and any trash around the property. Educate your children that it is not ok to go into a vacant or abandoned house or commercial property. Please discourage teenagers from using abandoned or vacant homes for parties. With these tips you can help ensure that your neighborhood is presentable and settled, discouraging those who wish to cause harm.
